Talc Powder

SAFETY & CLEANING INSTRUCTIONS

READ THE SAFETY INSTRUCTIONS CAREFULLY BEFORE USING YOUR EPISIOTOMY TRAINER

DO's

Follow all instructions. Keep these instructions. Heed all warnings.

Wear gloves at all times and remove all jewellery items. Sharp surfaces such as finger nails and rings can lead to damage of silicone parts.

Clean the product with a soft damp cloth or sponge, using only warm water with mild detergent, after every training session.

To avoid tearing, you can apply talc to the baby head and around the rim of the hole in the episiotomy pad. This will prevent friction occurring when fitting the baby head.

DON'Ts

Do not install near any heat sources, do not expose the product to flames or use near naked flame sources. Do not use flammable solvents near or on this product.

Do not use any attachments other than those supplied by the manufacturer.

Do not disassemble the product or attempt to repair a faulty unit, please return the product to Limbs & Things for assessment and repair.

Do not allow young children to use this product.

STORAGE & TRANSPORTATION

When a training session is completed, and prior to packing away, remove all parts from the Stand component so that they don't experience undue tension for long periods of time whilst in storage.

Always ensure that the product is properly packed and secured during transportation and storage in order to prevent personal injury or damage to the product.
