

OtoSim Educators Portal™

An Online Educational Platform for Mobile Otoscopy Simulation

The **OtoSim Educators Portal™** is designed specifically for clinical educators who teach otology as part of a medical education curriculum, a clinical training program, or a CME course.

The **OtoSim Educators Portal™** gives clinical educators the full control over their otology curriculum to:

- ✓ Easily create and customize lectures, quizzes, and exams
- ✓ Connect students who are using the OtoSim Mobile™
- ✓ Track and monitor student performance in real-time

Add OtoSim Educators Portal™ to your Curriculum Today!

BETTER EAR AND EYE TRAINING, BETTER OUTCOMES

Maximize your Educational Outcomes with OtoSim Educators Portal™

Develop and Customize Your Otology Curriculum

- Username and password for personalized access to our web-based cloud Portal
- Access a library of 400 high-quality otologic images complete with annotations and robust content
- Build and customize lectures and presentations for each group of learners
- Create and deliver quizzes and exams to assess both anatomical knowledge and diagnostic skills

Track and Monitor Performance of Students

- Connect with your trainees via **OtoSim Mobile™**
- Tag chapters, topics, and quizzes for students to review
- Track and monitor individual and group performance in real time

Make Informed Decisions to Improve Educational Outcomes

- View reports on individual and group performance on assigned tasks, quizzes, and exams
- Identify areas that need improvements and make real-time changes
- Maximize engagement and interactive learning for both the educators and the trainees

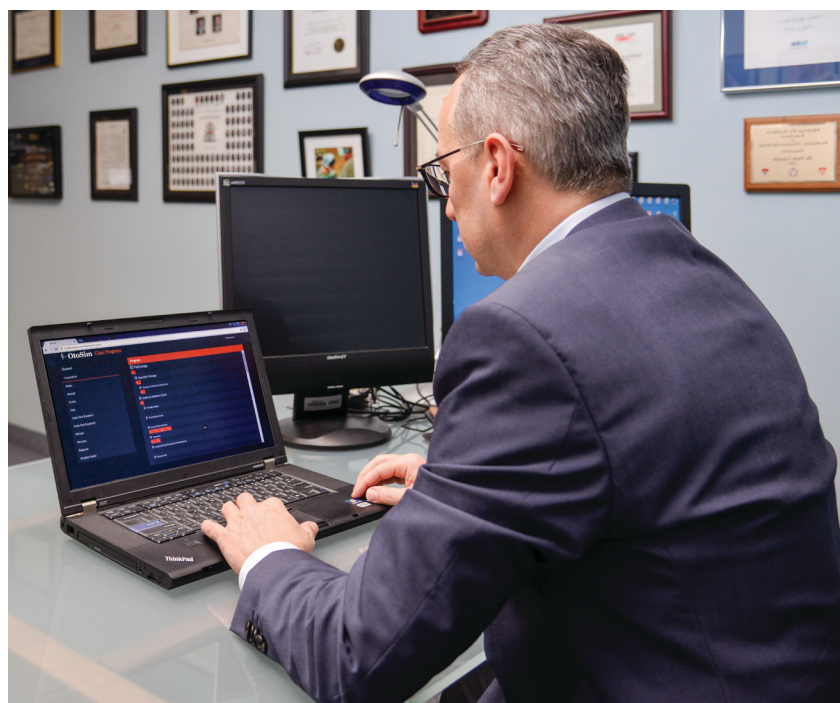

“Preclerkship medical student acquisition and retention of otolaryngology diagnostic skills can be greatly improved through web-based teaching modules and otoscopy simulation.”

Wu, V. and Beyea, JA.
Otolaryngology - Head and Neck Surgery.
Vol 156, Issue 2, 2017

Our secure cloud-based database access ensures seamless integration into your existing curriculum.

We offer affordable pricing options for any educational program.
